

Press Release

## **Building work begins on Western Switzerland's largest power plant based on wood by-products**

Morges and Rueyres, 7 November 2008 -- Romande Energie and Scierie Zahnd are presenting the Enerbois biomass power plant project at Rueyres today. One item that will be mentioned is the investment by Enerbois of CHF 37 million for the construction of this new facility, which will be the largest biomass plant in Western Switzerland. A second press release with more details will be published later today.
